Let's not forget how she successfully got her sister to breastfeed her nephew for well past the 6 months that most don't event make it too. I think it was closer to a year if not over it. And this is miraculous because Brieah hasn't had the pleasure to breastfeed a baby herself, but when she does, we know she will be awesome at it. KUDDOS to you Brieah and all that you do behind the desk and in front of it!!!~
